VOL. XVII.

STANFORD, KY. TUESDAY, SEPTEMBER 24, 1889.

NO. 64

## CRAB ORCHARD.

—Just arrived, at A. H. Noaks', a bouncing girl. Both mother and child doing well.

—At 1 p. m. Saturday, 28th, at the residence of J. R. Lawless, will be sold at auction two cows and the household and kitchen furniture.

—We received several papers from the editors of the Mt. Vernon Signal. It is a clean, handsome sheet and a paper the citizens of that county should be proud of. We wish them success.

—Nearly all the visitors have left the Springs and the place begins to put on its wintry quietude. Mr. D. G. Slaughter has retired entirely from Drilling, but we expect him to show up somewhere by next season.

—There is but a small amount of sickness here this season, which is saying a great deal for the healthfulness of this locality. While we read of fevers prevailing in many places, we have but very few cases of such.

—The farmers are busy putting in wheat, which on stalk land will be late getting in on account of corn having dried up slowly, but these cool nights and clear days will harden the acids of vegetation and dry it very fast.

—Mr. J. R. Lawless auctions off the effects, which he cannot take with him, next Saturday and moves to Lexington. Mr. T. C. Davis and family are going to move to Stanford and Mr. Mastin, of Bastin & Collier, will move into the house now occupied by Mr. Davis, after having some additions put to it.

—Mr. J. P. Chandler returned home Saturday, after a week at Middlesboro. He says money there is "floating around like leaves in the fall." Mr. Jos. Coffey and Dr. Armendt made another prospective visit to Middlesboro. Mr. W. P. White has gone to Cumberland Gap, thence to Tennessee, to be gone 10 days. Mr. J. S. Joslin, of Mt. Vernon, was here Saturday.

—Miss Kate Bogle, our superintendent of public schools, was here Friday adjusting the location of a school-house in one of the districts in which there has been quite a squabble for some time. Mr. Arthur Zeller, our handsome young druggist, has gone to Winchester. Mrs. J. S. Cooper, Mrs. C. A. Redd and Miss Lydia Edmiston returned Saturday from Manchester, where they have had a nice visit.

—Mr. J. G. Noble, of Louisville, representing the Southern Building Association of Knoxville, Tenn., was here Friday and Saturday organizing a branch here. These associations are all good concerns and induce persons to save each month or week a small amount of their earnings and place it where it will draw interest and when properly managed is perfectly safe, and every one who can would do well to take shares in one. A home concern first, then in a foreign one, yet it is well to examine into anything that promises too much. Money can't be rolled up like a snow ball and double itself every roll over.

WHOSE EYE IS IT?—Paste or pin several newspapers together. Cut a number of holes in them about 18 inches apart and each a little larger than the human eye. Now fasten this paper around three sides of a clothes horse. Some of the party go inside and look through the holes in the paper, placing their faces close to it. The rest remain outside and try to decide the owner of each of the various eyes beaming upon them. Strange to say, however, familiar all the players may be, they will find this a very difficult task. Try it and see. The game is well worth the very slight preparation required.—New York Mail and Express.

John Kelly had upon our table a twin egg, joined together at the short ends, which is a great curiosity.—Green River Times.

It must be very annoying to have people come into your office and lay eggs and things on your tables and desks. Why don't they construct nests and lay their eggs at home?—Jesse's Journal.

Marriage is a sacred and beautiful thing. There is no comfort like having a sympathetic companion to turn to in all trouble. I don't believe in marrying money or beauty. There is nothing like genuine, old-fashioned goodness to form the foundation of happy married life, and men should know that the plainest woman may acquire beauty from inner radiance of a noble nature.

In the New York City Post-office between the hours of 4 and 7 p. m., 30 men are employed in stamping letters, at the rate of 3,000 each per hour. A new device which postmarks 24,000 letters per hour is said to have been invented and set to work in that office. The new machine has been on trial two months, stamping 500 letters per minute as a maximum rate.

Martin Tupper will soon feel how it is to be an octogenarian. The "Proverbial Philosopher" was educated for and admitted to the bar, but a serious impediment in his speech prevented him from practicing.

—J. W. Guest's bay colt, Heron, by Harry O'Fallon, won the St. Leger stakes worth \$3,200, Friday, 14 miles in 2:13½, the quickest time ever made in the race, which has been a feature of the Louisville Club since 1875.

—Twenty-three sons of George Wilkes 18 sons of Hambletonian, 6 sons of Almont, 4 sons of David Lambert, 3 sons of Electioneer, 5 sons of Happy Medium and three sons of Volunteer have so far this year contributed trotters to the 230 list.

—The Sentinel says there were 600 cattle on the Mt. Sterling market court day, two-thirds of which were sold at \$2 to \$3. About 100 suckling mules sold at \$40 to \$90; about 600 sheep changed hands. The average price of wethers was about 3 cts. per pound and the ewes sold for a little more.

—Tate & Catron sold to Jesse Fox 25 mule colts on an average of \$65, two bay horses to M. Cooper for \$205 and to A. Wolf 12 head of good cattle at 2½ to 3 cts. They bought from different parties in Pulaski and Rockcastle, 32 head of mule colts at \$40 to \$85 per head.—Somerset Reporter.

—A. T. Nunnally made the following stock trades Friday: Bought of J. M. Copeland 200 sheep and lambs at 3 cts.; of L. D. Garner 11,000-pound steers at 2½ cts.; of J. C. Coffey 21 200-pound hogs at 3½ cts.; of J. Marsh Coffey 10 220-pound hogs at \$3.65 and sold to R. Bronaugh 13 fat yearling heifers at 3 cts.

—T. B. Ripy shipped to Chicago Monday, 14 car-loads of cattle, about 220 in number, bought some time ago. They averaged about 1,250 pounds and cost Mr. Ripy \$3.50 to \$4. John C. McBrayer bought 16 mule colts at from \$60 to \$78, and Frank James, of Mercer, bought 15 at \$60 to \$85; fifty ewes sold at \$3.50.—Anderson News.

—A test made at the Iowa State Fair showed that the best Jersey cow made a pound of butter from 22.2 pounds of milk; the best Holstein cow of the Home Farm Co. made a pound from 31.1, while M. E. Moore's best Holstein made the pound of butter from 26.5 pounds of milk. A Red-polled cow made the pound from 23.5 pounds of milk.

—Another hotel at Old Point, to cost \$500,000, will be commenced next month.

## DEATH'S DOINGS.

—BEAZLEY.—Of paralysis after a long confinement, Mr. Allen Beazley breathed his last Sunday in the 69th year of his age. He was born in Garrard county in 1820, where he was held in the highest esteem and frequently elected to public office. His brother James and he were the first to hold the office of sheriff under the new constitution, each being elected for two terms. He married Miss Mildred, daughter of the late Roy Stewart, of this county, and came here to live some 12 or 15 years ago. His wife and eight children are left to mourn their loss, which is his eternal gain, for he was a good man and an humble follower of his Master, whom he accepted years ago and became a member of the Christian church. After a service at his late residence at 11 o'clock yesterday, by Rev. John Bell Gibson, his sorrowing family and friends followed the remains to the Lancaster cemetery, where many others united in paying him the last tribute of respect.

—At 6 o'clock Friday the long life of Mrs. Elizabeth Myers came to a peaceful close at the home of her daughter, Mrs. W. F. Ramsey, where she had been for some time. She was 82 years of age and her death resulted simply from the effect of their weight. She was a native of Rockcastle and was twice married, first to John Cook, by whom she had two children, Mrs. Judge John Fish and the late Milton Cook, of Rockcastle. Her second husband was George Myers and he has been dead full 25 years. Six children blessed their union, four of whom, Mrs. Ramsey, Mrs. Elizabeth Carson and James and Frank Myers survive. Mrs. Myers had been blind for 10 years, but in her affliction she was sustained by a never failing trust in her Redeemer. When she accepted and united with the Reform Church in its very infancy, lived and died a Christian. The remains were taken to Rockcastle Saturday for interment.

—Mr. J. A. Moore, the well-known real estate man at Kingsville, died Sunday of cancer, aged about 45 years. Mr. Moore was a splendid citizen and did very much to benefit the community in which he lived. He was engaged for several years in the land business and by a system of thorough advertising brought many valuable citizens to his section from other States, who purchased farms and greatly improved them. Mr. Moore leaves a wife and several children, who have the sympathy of many friends in their great loss.

## CHURCH AFFAIRS.

—Eld. A. P. Cobb, a noted evangelist, will begin his meeting at the Christian church here the first Sunday in October. —The Southern Methodists dedicated a \$20,000 church at 20th and Jefferson streets, Louisville, Sunday, Bishop Keener officiating.

—The National Convention of Colored Baptists at Indianapolis reported that there are 1,362,273 negro members of the Church in the U. S.

—Rev. J. M. Bruce left yesterday for his new charge at Glasgow, going thence in his buggy. The church is a strong one and the salary liberal.

—Elder W. L. Williams closed a meeting at Goshen Sunday with 12 additions, 8 by baptism. He was here yesterday, feeling none the worse for his week of very hard work.

—A Baptist revival at Mackville, in Washington county, closed with 39 additions. The News says three protracted meetings there inside of two months have converted 96 souls.

—A dispatch says, "While making a prayer at a camp meeting near Little Rock, a Methodist preacher named J. H. Crouch was arrested for forging drafts." The cruel officer might have waited till the petition was ended, even if the prayers of the wicked do not avail.

—Rev. E. J. Godby, the new Methodist pastor, preached at his own church Sunday and at the union meeting at the Christian church that night. A very large audience was present at the latter service and the impression made on it was of a very pleasing nature.

—Deputy Marshal Howes has found out that he can't very well be a preacher and fill the duties of his other office at the same time, so he has given up the pulpit. It is very evident that Mr. Howes was not called of God to preach. He must have answered when somebody else was called.

—Pastor S. Stanfill, assisted by Rev. Bray, of Carryville, Tenn., Rev. G. D. Hendrickson and Rev. J. W. Mahan, have recently held a glorious meeting in his church at Jellico. The meeting continued two weeks. There were 22 additions to the church, 18 by baptism and 4 by letter. The saloons and store keepers closed up their houses of business on the hour of the day service.—Interstate News.

—The business of sheep-raising is rapidly appreciating in Kentucky, Tennessee and other Southern States. At present good mountain ewes command from \$3.50 to \$4 per head. There are now said to be 570,000 large sheep breeders in the United States, besides fully 100,000 who own small flocks.

## LONDON, LAUREL COUNTY.

—Squirrels are more numerous than they have been for years.

—Rev. J. A. Sawyer preached at the Methodist church Sunday.

—Chestnuts are getting ripe and they are plentiful in some parts of the county.

—The Lien brothers, who were jailed for stealing a beef, were released on bond Saturday.

—Several droves of fine cattle have passed through here recently for Central Kentucky.

—R. M. Jackson's horse, Black Knight, got second money in two entries at the Somerset Fair.

—A great many sweet potatoes have been brought to town since the first Wednesday night.

—In a difficulty near Bush's Store, Thursday, George Chestnut severely stabbed William Brock.

—Marsh Watkins was brought to town Wednesday charged with rape. He waived examination and gave bond for circuit court.

—A difficulty occurred at the church at Pittsburg Sunday night in which Marshal Spears shot a young man named Miller through the arm.

—Mr. Till Williams, father-in-law of Mrs. Lucy Williams, died at his home about 4 miles north of here, Tuesday, and was buried at the Southard burying ground next day.

—Dave Jackson returned from Louisville Saturday. Judge Brown left Saturday to attend Harlan circuit court. William Hayward, depot agent, who has been sick for several months, is slowly improving. Miss Pearl Brown, of Lancaster, is visiting friends.

## MT. VERNON, ROCKCASTLE COUNTY.

—L. S. Jones has sold out his Kansas store and with his old Louisville partner has opened a big establishment in Middlesboro.

—R. L. Myers, of this county, has a saddle he bought in 1841, which he has lately had recovered and it seems as good as new. The only old-fashioned spinning wheel we have seen running for many years is at Mr. M. J. Miller's this place. Its buzz reminds one of days long since passed.

In his sketches of the coming law makers, Green Keller has the following about our member:

"R. C. Warren, of Lincoln, was once or twice Commonwealth's Attorney in his district, and the State never served more honorably and faithfully. He is yet in the prime of life, and enjoys a large law practice at his home. His people know him familiarly as 'Dick,' and they have good reasons to be proud to have him represent them. They expect him to revive the glory of old Lincoln, who in her day has furnished leaders in public life, and their expectations and not without reason."

Probably the longest "bee" line railway in the world is that from Buenos Ayres to the foot of the Andes. It covers 230 kilometers or about 275 miles, and is as straight as an arrow. The highest grade is about 3 feet to the mile. It crosses no ravine and no stream and therefore has no bridge.

Three sisters, all under 15 years of age, in Missouri, weigh together 893 pounds. Lydia, 13 years old, is the heaviest, tipping the beam at 373 pounds. Two of the trio have six fingers on each hand and the same number of toes on each foot. The parents are of ordinary size.

The four new States bring in an area about equal to that of all New England—New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Kentucky and Indiana combined. It is an area three times as great as the British Isles.

Somebody has discovered that peach-stones can be used as fuel, and now they command \$6 a ton in California. A sack of stones weighing 80 pounds will last as long as an equal weight of coal and give greater intensity of heat.

A West Virginian trained a tiny stream of water to fall drop by drop on a rock, and in five years it has worn a hole seven inches deep in solid stone, proving that water falling day by day wears the hardest rock away.

"The world grows weary praising men, And wearied grows of being praised— But never wearied grows the pen Which writes the truths that have amazed the throngs who have been given up by their physicians and who have been restored to complete health by using that safest of all remedies for functional irregularities and weaknesses which are the bane of womanhood. We refer, of course, to Dr. Pierce's Favorite Prescription, the only guaranteed cure for all those chronic ailments peculiar to women. Read the guarantee on the bottle-wrapper."

To regulate the stomach, liver and bowels, Dr. Pierce's Pellets excel. One a dose.

Berg's Cherry Cough Syrup.

Is giving splendid satisfaction to the trade and the sales are positively marvelous, which can be accounted for in no other way except that it is without doubt the best in the market. Ask for and be sure you get the genuine. We keep it. A. R. Penny, Druggist.

W. T. POYNTER.

W. P. WALTON.

IN less than a month the democrats of this county will be called on to decide who shall be their standard bearers for county offices to be filled at the August election 1899. The committee, which met in July, prescribed that the vote shall be by ballot, but we are sure when it meets in response to Chairman Newland's call, published in this issue, it will reconsider the action. The plan is clumsy and unsatisfactory, besides it is much more manly to go to the polls and vote by the old-fashioned viva voce plan. The order for the election fixes the qualification of voters as follows: "Democrats and minors of democratic proclivities, who will attain their majority by the next August election, shall be allowed to vote." This seems to be plain enough, but the committee should fix some standard of determining by a previous vote as to a man's democracy. These and other things will be attended to at the meeting called, which we hope will be attended by every member of the committee. None but good democrats should be permitted to select a democratic ticket and we are sure the committee appreciates this, as well as we or anybody else.

THE Barbourville News gets after the court for suspending imprisonment part of a sentence for carrying concealed weapons, when the accused is able to pony up the fine, and wants to know by what right it is done. We suppose that it is by the right of might, but it ought not to be permitted. The law contemplated the making of the cowardly practice of "packing pistols" odious by providing that both the penalties of fine and imprisonment should be inflicted, but the judges and Commonwealth's attorneys nearly everywhere draw the line at letting a man with the wherewithal pay his fine go to jail, thus making the law one-sided in its operation.

IMAGINING they were outside of civilization and law, some of the State guard amused themselves by shooting at targets within the limits of Pineville the Sunday they were there, and got run in for their fun. Lt. Taylor and Sergeant Morgan were fined each \$5 next day. In its notice of the matter the Messenger facetiously says: "You bet we don't allow no blue-grass-blue-coat to come up here committing lawlessness of no sort and we will teach them if they do any shooting in this country they've got to shoot a man and not disturb the neighbors by shooting holes in the soft, peaceful air of the Sabbath day."

THE fellow with the "Ulster County Gazette," published January 4th, 1890, seems to have been laying for the new editor of the Springfield News, who bit at the bait and gave the usual notice. After Erer, Saunders has been in the business awhile, he will find out that there are more copies of the Gazette floating around now than there were citizens of the U. S. at the time it is alleged to have been published. The copies are facsimiles and the enterprising Yankee who prepared them for the Centennial in 1876 must have made a fortune out of his enterprise.

MR. CLEVELAND expresses much gratification at the outspoken expressions on the tariff by the State conventions, which have assembled this fall, and which have been in direct line of his masterly message. Virginia democrats only have straddled the question and they are at present thinking more of defeating Mahone than of the National policy so dear to every democratic heart. But as Mr. C. says "party honesty is party expediency" and is a truism that the Virginians will realize in the long run.

THE adventuress, who worked the young millionaire, Robert Ray Hamilton, for the rankest sucker and became his wife, seems at the end of her row. The jury in the case against her for stabbing her nurse with intent to kill, gave her two years in the penitentiary. The trial was a very sensational one and brought out under sworn testimony much of the matter heretofore published.

J. FLETCH MARCUM, of the Catlettsburg Democrat, is announced as a candidate for Sergeant-at-Arms of the Senate. He is a son of T. D. Marcum, formerly register of the land office, and takes after the old man in capability, cleverness and pulchritude. It would please his brethren of the press very much to have his ambition gratified.

THE patent office is the only money-making establishment belonging to the government, except the mints. During the last fiscal year there were 38,740 applications for patents, of which 21,518 were granted, including re-issues and designs. The receipts of the office were \$1,186,557 and expenditures \$999,697.

AN Idaho woman has done something no other woman has ever done before. Mrs. Hiram Shell is her name and her wonderful performance is the giving birth to a litter of six children, three of each sex—all well and doing well. The husband and father has taken to the woods.

INSTEAD of adopting the usual cut and dried resolutions the Teachers' Institute in Dubois county, Ind., got outside of the beaten track and resolved to ask that a thorough course of instruction on the effects of tight lacing and painting the face with injurious cosmetics be introduced in the public schools. They also denounced the custom of chewing gum, of using wire, cotton and sawdust pads to deceive in regard to beauty of form, and of bustles to occupy unnecessary room in every conveyance and render necessary the use of much expensive material for dresses. This is reform with a big R. In the days when the blue laws prevailed there were heavy penalties for ladies to pad or otherwise change their forms with intent to deceive, but those days are past never to return. Neither a life sentence to penal servitude nor capital punishment itself will deter the average girl from trying to make herself more beautiful in form or figure and all the denunciation of and homilies on the evils therefrom resulting will go for naught.

GEN. HILL and Capt. Gaither, at the request of Wils Howard and Will Jennings, met them out in the mountains 12 miles from Harlan C. H., Friday and had an interview. "Both expressed themselves as being tired of the life they were living, and would surrender, but wanted assurance of a fair trial and time to get attorneys to defend them. The probability is that they will come town this week and give themselves up. They said if they did not do this they would leave the country." The fair trial that these outlaws want is an unconditional acquittal and no compromise whatever should be made with them.

THE next prohibition election is to be held in Connecticut and it will occur Oct. 5th. The indications are that it will be defeated by an overwhelming majority; in fact it is stated that the prohibitionists have become so thoroughly discouraged by the series of mortifying defeats that they are letting the question go by default. This course, in view of past failures, seems as good as any. The people are not ready for constitutional prohibition and they say so in unmistakable terms every time they are given a chance.

THE roster of the Orphan Brigade shows that nearly all of the survivors have become as famous in peace as they were renowned in war and are filling the important offices of the land, such as governor, appellate judge and on down the scale of honor and usefulness. Not one of them is a beggar and not one of them would be pensioned if he could. The same number of men that were in the Northern army are now drawing about as much money as they did in active service and crying for more.

THE Knights of Labor, which a few years ago was a powerful organization, in numbers at least, is said to have so near played out that the entire executive board has been suspended and the general lecturers withdrawn from the field. The want of interest and more especially the lack of funds is the cause. It is further stated that Mr. Powderly has already prepared his resignation, which he will present at the next general assembly.

THE blue and the gray commingled with brotherly affection at Mission Ridge last week and but for the politicians, who trade in keeping up strife between the sections, it would look very much indeed as if the war was really over. It is over with those who fought on either side, but the bloody shirt flaunters who shirked in war and fight only in peace, will begin to get in their work so soon as Congress convenes.

JOHN Goss, who murdered his own child at Logansport, Ind., showed his disgust at the jury's verdict of imprisonment for life by promptly hanging himself in his cell as soon as he got the chance. Had the jury been equal to the occasion Mr. Goss would have been saved the commission of a second murder.

THE death of George W. Tipton, provisional governor of the Island of Navasas, West Indies, is dead. He was a brother of Judge French Tipton, of the Richmond Climax, to whom we tender sincere condolence in his bereavement.

THE friends of the old farmer, Polk Johnson, will be glad to learn that his son, Sidney, is convalescing from a severe attack of the fever, which has kept him at his bedside for several weeks.

TO the Members of the Democratic Committee.

You are requested to meet at my office in Stanford, Saturday, October 5th, at 1 o'clock, for the consideration of important matters connected with the approaching primary election.

T. D. NEWLAND, Ch'n.
